

Another year has passed. Slowly we are getting back to normal. We meet in person regularly. We socialize a little more. Cautiously we begin to start up church programs.

As I write this report I am forced to look back over the year and to try and remember what has happened. We started the year with two new members on the vestry. Linda and Leo made a strong vestry even stronger. We continued to supply meals to the Enough Ministries food closet. The church reopened to Monday breakfast .

The organ installation has been completed, the lighting in the church has been improved and the church garden looks better than ever. In July, the Inaugural concert of the Inspiration 7 Organ by Cassavant occurred. We had two guest organist in addition to Ms. Marjorie Strong. We now have sermons delivered once a month by Burton Cooper. We have welcomed new members to the congregation. These are all very positive things and show that we as a church are moving in the right direction.

The discernment committee spent 6 Months on the process. Going forward discernment will be the big project in the coming years. The implementation of the plan will require the dedication and hard work of us all. In closing, I would like to thank the discernment committee for their 6 months of hard work on the plan, Marjorie Strong for her many years of work on the vestry and nearest to my heart Cindy Willis for acting as Clerk of the Vestry as well as taking minutes at the many discernment meeting.

Respectfully

Philip Moros
